## HARNESSES

### GSE 1020 - 2 Point Fall Arrest Harness

This 2 point full body harness is fitted with a front and rear 'D' connecting point and includes rip stitch fall indicators. The front 'D' ring connection is designed to ensure even force distribution when under load.

EN 361. 45mm water repellent polyester webbing.

Weight: 1.25kg. High tensile steel fittings.

### GSE 1021 - 2 Point Fall Arrest & Rescue Harness

This 2 point rescue harness has all the features of the GSE 1020 harness with an additional rescue strap for use in confined space access. Can be used in conjunction with our G-Tripod, G-Saver II and G-Winch to access confined spaces. The rescue strap allows for a person being rescued to be raised in a close to vertical position which is preferred when recovering a casualty.

EN 361, EN 1497

Weight: 1.3kg

Carries the **CE** mark of approval.

Fully tested to European Standards.
